DUBLIN, May 9, 2023 – [Mallinckrodt plc](#) (NYSE American: MNK) (“Mallinckrodt” or the “Company”), a global specialty pharmaceutical company, today reported results for the first quarter ended March 31, 2023.<sup>1</sup>

“Mallinckrodt had a solid start to the year. We made steady progress on key opportunities in our branded portfolio and delivered sales growth in the Specialty Generics segment, which benefits from our high-quality United States based product manufacturing,” said **Siggi Olafsson, President and Chief Executive Officer**. “Within Specialty Brands, we were particularly pleased with the ongoing launch of Terlivaz (terlipressin). Momentum remained strong as we gained significant formulary inclusion in target hospitals, and we continued to see high engagement from the medical community around Terlivaz’s clinical benefits. We also remain focused on the ongoing launch of StrataGraft® (allogeneic cultured keratinocytes and dermal fibroblasts in murine collagen – dsat), and, if approved, bringing INOmax Evolve™ to the market late this year. Further, we increased cash on hand, demonstrating our continued commitment to disciplined capital management.”

Mr. Olafsson continued, “As we have stated, 2023 is a pivotal year for Mallinckrodt. We have a number of opportunities ahead, as well as challenges from competitive pressures, while we work to stabilize the business in the near term and position Mallinckrodt for sustainable long-term growth. Overall, we are pleased with the performance this quarter, as evidenced by our reaffirmation of 2023 guidance, despite the Acthar® Gel top-line softness. We will continue to be sharply focused on advancing our strategic priorities, all while keeping our mission to improve outcomes for patients with severe and critical conditions at the core of everything we do.”

**First Quarter 2023 Financial Results<sup>1</sup>**

Mallinckrodt’s net sales in the first quarter 2023 were \$424.6 million, as compared to \$490.9 million in the first quarter 2022. This reflects a decrease of 13.5% on a reported basis and 13.3% on a constant currency basis.

The Company’s Specialty Brands segment reported net sales of \$252.0 million, as compared to \$339.4 million. This reflects a decrease of 25.8% on a reported basis and 25.5% on a constant currency basis, primarily due to the impact of competition and continued scrutiny on overall specialty pharmaceutical spending.

<sup>1</sup> The Company’s quarterly comparisons are to a Successor period (three months ended March 31, 2023) and a Predecessor period (three months ended April 1, 2022). As a result of the application of fresh-start accounting, the Company’s financial statements for periods prior to June 16, 2022 are not comparable to those for periods subsequent to June 16, 2022.

Mallinckrodt's Specialty Generics segment reported net sales of \$172.6 million, as compared to \$151.5 million. This reflects an increase of 13.9% on a reported basis and 14.0% on a constant currency basis, primarily due to growth in finished dosage products as the broader market has experienced disruption in product quality and supply.

The Company recorded a net loss for the first quarter of \$249.3 million, as compared to a net loss of \$119.6 million. Diluted loss per share for the first quarter was \$18.93 with adjusted diluted earnings per share of \$1.68.

Mallinckrodt's Adjusted EBITDA in the first quarter was \$123.5 million, as compared to \$177.0 million. This is primarily due to lower net sales coupled with investments in the launches of Terlivaz and StrataGraft, partially offset by other reductions in selling, general and administrative (SG&A) expenses and research and development (R&D) expenses as a result of the Company's initiatives to improve its overall cost structure.

Mallinckrodt's cash balance at the end of the first quarter was \$480.0 million, benefited in the quarter by the receipt of the Coronavirus Aid, Relief, and Economic Security (CARES) Act receivable offset by seasonality changes in working capital. The Company continues to maintain an undrawn accounts receivable financing facility up to \$200 million, ending the quarter with approximately \$680 million in liquidity. Total principal debt outstanding at the end of the first quarter was \$3.523 billion, with net debt of \$3.043 billion. In the quarter, Mallinckrodt entered into an interest rate cap agreement, which serves to reduce volatility on future interest rate cash outflows.

Please see "Non-GAAP Financial Measures" included in this release for a discussion of non-GAAP measures and reconciliation of GAAP and non-GAAP financial measures for the first quarter.

## 2023 Financial Guidance

For the full-year 2023, Mallinckrodt reaffirmed the following guidance:

	<b>2023 Guidance</b>
Total net sales	\$1.700 billion to \$1.820 billion
Adjusted EBITDA	\$510 million to \$560 million

The Company does not provide a reconciliation of forward-looking non-GAAP guidance to the comparable GAAP measures as these items are inherently uncertain and difficult to estimate and cannot be predicted without unreasonable effort.

## **NON-GAAP FINANCIAL MEASURES**

This press release contains financial measures, including adjusted EBITDA, adjusted net income, adjusted diluted earnings per share, adjusted gross profit, adjusted SG&A, net sales growth (loss) on a constant-currency basis, and net debt, which are considered "non-GAAP" financial measures under applicable SEC rules and regulations.

Adjusted EBITDA represents net income or loss prepared in accordance with accounting principles generally accepted in the U.S. ("GAAP") and adjusted for certain items that management believes are not reflective of the operational performance of the business. Adjustments to GAAP amounts include, as applicable to each measure, interest expense, net; income taxes; depreciation; amortization; restructuring charges, net; non-restructuring impairment charges; inventory step-up expense; discontinued operations; changes in fair value of contingent consideration obligations; significant legal and environmental charges; divestitures; separation costs; gains on debt extinguishment, net; unrealized gain or loss on equity investment; reorganization items, net; share-based compensation; fresh-start inventory related expenses; and other items identified by the Company.

Adjusted net income, adjusted gross profit and adjusted SG&A represent amounts prepared in accordance with GAAP, adjusted for certain items that management believes are not reflective of the operational performance of the business. The adjustments for these items are on a pre-tax basis for adjusted gross profit and adjusted SG&A and on an after-tax basis for adjusted net income. Adjustments to GAAP amounts include, as applicable to each measure, amortization and non-restructuring impairment charges; restructuring and related charges, net; inventory step-up expense; discontinued operations; changes in fair value of contingent consideration obligations; significant legal and environmental charges; divestitures; separation costs; gains on debt extinguishment, net; acquisition and fresh-start inventory and accretion related expenses; unrealized gain or loss on equity investments; reorganization items, net; tax effects of the aforementioned adjustments, changes in uncertain tax positions, as well as tax impacts from certain transactions, such as acquisitions or legal entity or asset reorganizations; and other items identified by the company. Adjusted diluted earnings per share represent adjusted net income divided by the number of diluted shares.

Segment net sales growth (loss) on a constant-currency basis measures the change in segment net sales between current- and prior-year periods using a constant currency, the exchange rate in effect during the applicable prior-year period.

Net debt as of March 31, 2023 represents the total principal debt outstanding of \$3.523 billion, less cash of \$480.0 million, each as prepared in accordance with GAAP.

The Company has provided these adjusted financial measures because they are used by management, along with financial measures in accordance with GAAP, to evaluate the Company's operating performance. In addition, the Company believes that they will be used by investors to measure Mallinckrodt's operating results. Management believes that presenting these adjusted measures provides useful information about the Company's performance across reporting periods on a consistent basis by excluding items that the Company does not believe are indicative of its core operating performance.

These adjusted measures should be considered supplemental to and not a substitute for financial information prepared in accordance with GAAP. The Company's definition of these adjusted measures may differ from similarly titled measures used by others.

Because adjusted financial measures exclude the effect of items that will increase or decrease the Company's reported results of operations, management strongly encourages investors to review the Company's unaudited

condensed consolidated financial statements and publicly filed reports in their entirety. A reconciliation of certain of these historical adjusted financial measures to the most directly comparable GAAP financial measures is included in the tables accompanying this release.

Further information regarding non-GAAP financial measures can be found on the Investor Relations page of the Company's website.

### ***Predecessor and Successor Periods***

Mallinckrodt's financial results presented here within include Successor and Predecessor periods. The Successor period runs from June 17, 2022 through March 31, 2023, while the Predecessor period includes June 16, 2022 and prior. As a result of the application of fresh-start accounting, the Company's financial statements for periods prior to June 16, 2022 are not comparable to those for periods subsequent to June 16, 2022. Operating results for the Successor and Predecessor periods are not necessarily indicative of the results to be expected for a full fiscal year.

Mallinckrodt's results of operations as reported in its unaudited condensed consolidated financial statements for the Successor and Predecessor periods are in accordance with GAAP. The comparison of the Predecessor and Successor periods for the periods presented here within is not in accordance with GAAP. However, the Company believes that the comparison is useful for management and investors to assess Mallinckrodt's ongoing financial and operational performance and trends.
